Who We Are

Slide 4

About Eye Of Ra

Eye of Ra is an Egyptian **Textile Sourcing and Brand Consulting agency** founded in 2021.

We act as a strategic bridge between brands and manufacturing partners, providing **end-to-end garment production support from concept to final delivery.**

Eye of Ra is not just a sourcing office.

We are **brand partners.**

We combine:

- Brand consulting
- Textile sourcing
- Production management
- Quality control

to guide brands from **idea to finished product.**

Slide 5
Vision & Mission

Vision:

To position **Egypt as a global hub for garment manufacturing** and become the trusted gateway connecting fashion brands to Egypt's textile ecosystem and global markets.

Mission:

To **simplify the manufacturing journey for fashion brands** by providing reliable sourcing, expert consulting, and transparent production management while ensuring **quality, efficiency, and competitive pricing.**

Leadership

Slide 7
Founder & Leadership

Eissa Mohamed

Founder & Chairman — Eye of Ra

With **25+ years of experience in the global textile industry**, Eissa Mohamed has built an extensive network spanning factories, brands, and buyers across **USA, Europe, China, Turkey, and Italy**.

His career combines **manufacturing expertise, international sourcing, brand management, and entrepreneurship**, giving him a unique ability to guide fashion brands from concept to production.

Slide 8
Eissa Mohamed

Career Journey

1999 - 2006

Egyptian Clothing Company:

Built manufacturing expertise producing dress shirts for **PVH Corporation** (Calvin Klein & Tommy Hilfiger).

2006 - 2015

Swiss Garments:

Developed global sourcing expertise and industry relationships across **USA, China, Turkey, and Italy**, collaborating with brands such as **Macy's, Banana Republic, and Hugo Boss**.

2015 - 2019

Calvin Klein - Brand Manager:

Held a leadership role, gaining experience in **brand management and global fashion operations**.

2019 - 2020

Atom Sportswear- Founder:

Launched his own sportswear brand in Egypt, building a brand from concept to market.

2021

Founder of **Eye of Ra:**

Founded **Eye of Ra** to support fashion brands with sourcing, consulting, and production management.

Slide 9

Why **Egypt ?**

Egypt offers a fully integrated textile ecosystem:

- Fabrics
- Trims
- Accessories
- Garment manufacturing
- Packaging

This vertical integration significantly reduces production lead times.

Egypt has long been recognized as a global textile center, known for its **high-quality cotton and garment manufacturing heritage.**

Its strategic geographic location at the crossroads of **Africa, Europe, and Asia** enables faster shipping times and more efficient logistics for international brands, making **Egypt** an attractive sourcing destination for companies seeking both **quality manufacturing and reliable market access.**

Slide 10

Our Purpose

Our purpose is to help brands **launch and grow with confidence.**

We do this by:

- Simplifying production
- Preventing costly mistakes
- Connecting brands to the right manufacturers
- Ensuring consistent quality

Slide 11

Built for Brands at Every Stage

Eye of Ra works with:

Startup brands launching their first collection

Growing brands scaling production and expanding product lines

International brands seeking trusted manufacturing partners in Egypt.

Slide 12

The Problem We Solve

Slide 13

From Production Complexity to Clarity

Many brands assume manufacturing is simple:

Design → Factory → Product

In reality, fashion production involves many decisions — from **fabric selection and factory capabilities to quality control, production monitoring, and shipping.**

Each step directly impacts **cost, quality, and delivery time.**

That's why brands don't just need a factory, they need a **partner who understands the entire production journey.**

At **Eye of Ra**, we act as **your local manufacturing partner in Egypt**, helping you navigate the complexities of production, guide key decisions, and prevent problems before they occur.

We support you through every stage:

Idea → Development → Production → Delivery

Slide 14

Where **Production Risk** Becomes **Our Responsibility**

Our Approach

Unlike traditional sourcing agents, we remain actively involved throughout production through **continuous follow-up and multi-stage quality control**, ensuring issues are resolved **before they become costly failures.**

The Result for Brands

- Fewer production surprises
- Faster and clearer decision-making
- Better cost control
- Smoother product launches

At **Eye of Ra**, production is not a handoff, it is a **shared responsibility**.

We work alongside brand owners from **idea to delivery**, reducing risk and preventing costly production mistakes.

How We Reduce Risk

- Selecting the **right factories** for each product
- Preventing **miscommunication during development**
- Detecting **defects early through regular production monitoring**
- Negotiating **competitive pricing across our supplier network**

Slide 15

Our Services

Slide 16

Eye Of Ra

Core Services

1. Consulting & Product Development

- Technical garment design and tech pack preparation
- Production planning, costing strategies, and brand guidance

2. Textile Sourcing & Factory Matching

- Sourcing premium fabrics including Egyptian cotton and high-performance materials
- Matching brands with trusted manufacturers and negotiating competitive pricing

3. Production Monitoring

- Work-in-progress monitoring (WIP) throughout manufacturing
- Factory visits, progress tracking, and issue resolution

4. Quality Control

- Multi-stage quality inspections
- Ensuring production meets international quality standards

5. Flexible Production Support

- Flexible minimum order quantities for startups
- Scalable production solutions for growing brands

Eye of Ra provides **end-to-end garment consulting, sourcing, and production management**, guiding brands from initial concept to finished product delivery.

Slide 17

Process & Methodology

Slide 19
Our Process & **Methodology**

Our process is structured to guide brands from idea to finished product.

Concept

Planning

Execution

Delivery

Slide 20
Process & Methodology

Concept Phase

Every successful collection starts with clarity.

At the concept stage, we work closely with brands to understand their **vision, target customer, and product direction** while evaluating the technical feasibility of production. By aligning creative ideas with manufacturing realities from the beginning, we ensure the project starts on **strong and realistic foundations.**

Slide 21

Process & Methodology

Concept Phase

Every successful collection starts with clarity.

At the concept stage, we work closely with brands to understand their **vision, target customer, and product direction** while evaluating the technical feasibility of production. By aligning creative ideas with manufacturing realities from the beginning, we ensure the project starts on **strong and realistic foundations.**

Slide 22

Process & Methodology

Execution Phase

Once production begins, execution becomes the priority.

Eye of Ra coordinates closely with manufacturing partners to ensure the collection is **produced according to the agreed standards.**

Through active **production monitoring, quality inspections, and timeline management,** we keep the process moving smoothly and prevent issues before they escalate.

Slide 23

Process & Methodology

Delivery Phase

Production is only complete when the product is ready to reach the market.

At the final stage, we oversee **finishing, packaging, and shipment coordination** to ensure every item is delivered in its best form.

Our goal is to provide brands with **sell-ready products**, prepared for distribution and customer satisfaction.

Slide 24
Clients & Partners

Slide 25
Eye Of Ra
Clients & Partners

Eye of Ra has worked with a **diverse range** of brands, supporting both **emerging and established companies** through **consulting, sourcing, and production management.**

Our experience spans **local and international projects**, helping brands successfully bring their collections to market.
